PAPER TOWEL / TOILET PAPER ROLLER DISPENSER

with **LOCK / without Lock.**

Our **New Quality Paper Towel Roller & Toilet Paper Dispenser** offers features and benefits others don't.

We wanted to be different from the everyday flat paper towel or the big & bulky & expensive paper roll dispensers that are made overseas, that you can only buy supplies from limited Stores.

What we Did & Why: We wanted a Paper Roll Holder for our factory. We had problems with what was on offer. In the end we designed & made our own. This led to making improvements, resulting in the quality finished product shown above.

The '**Lockable Stainless Paper Towel Dispenser**' is a unit that is suitable for everyday use in any Factory, Restaurant, Kitchen, or Public Bathroom. After making & testing this one we felt it was good enough to take it to the market.

It is a '**High Quality & Lockable**' Unit, also available with the option of having "No Lock".

Benefits :-

- ✓ - Paper Towel Rolls are easier / cheaper to source * from any local Supermarkets, unlike Flat Pack Paper Towels which are available from certain, limited suppliers and normally in bulk.
- ✓ - The unit has a **Weighted Cover Plate**:- This holds the paper in place when tearing & when not in use. This weight stops the paper from Running freely when pulled.
- ✓ - It holds up to **2 Toilet Rolls**.
- ✓ - Has a **built-in combination lock**, rather than a key, that can get lost.
- ✓ - This lock acts as an Anti-Theft device.
- ✓ - Will suit standard to larger diameter rolls (120mm - 145mm)
- ✓ - Will accept various Paper Towel Rolls lengths.
